Dinner sausage is becoming less of a seasonal item as consumers seek affordable, convenient, healthy, and versatile proteins all year long. All of Aria's® dinner sausages and other products are exemplary examples of all of those things! Not only does Aria® have an exceptional and full-flavored variety of products, but they are also distinct in having a dinner sausage that qualifies for the American Heart Healthy logo from the American Heart Association. With eye-catching packaging and a brand-supported marketing program, retailers will see these consumer driven flavor profiles fly off the shelf.
